# **INTRODUCTION**

North American Stocking Distributor

### INTRODUCTION

GN Rope Fittings was founded in 1917 by the Bon brothers under the name Smederij N.G. Bon. In 1938, the company was taken over by the Bodegraven brothers and renamed N.V. Nieuwkoopse Stoomsmederij.

In 1960, this company expanded by merging with Grofsmederij Uithoorn BV and its new owners, the Vossenberg family - who were related to the Bodegraven family. Both companies supplied equipment to the shipping, fishing and offshore industries. After some time, the two companies merged to form Grofsmederij Nieuwkoop BV located in Nieuwkoop.

Today, Grofsmederij Nieuwkoop BV, known internationally as GN Rope Fittings, is one of the leading manufacturers of mooring and heavy lifting accessories in the offshore industry and is still owned by the Vossenberg family.

### **CERTIFICATES**

#### **Certificates Inspection and documents**

GN products are available with several types of applicable certifications.

 ${\sf GN}\ is\ approved\ manufacturer\ for\ different\ type\ of\ products\ by\ several\ classification\ societies.$ 

For special products we can arrange for third-party design approvals.

On request we can deliver our products with the following certificates and inspections:

- Certificate of conformity.
- Certificate of Origin.
- Material certificate in accordance with EN 10204 3.1 or 3.2
- Load test certificate.
- NDT inspection, Magnetic Particle Inspection (M.P.I.) and Ultrasonic Inspection (U.S.)
- Classification society inspection certificate.
- Design approval certificate.
- FEA strength and Fatigue calculations.

M.P.I.

Examination standard EN10228-1:2012 Acceptance standard DNV-OS-E302

U.S.

Examination standard EN10228-3:2012 Acceptance standard EN10228-3:2012

You will find the cost of the certificates in our latest price list or you can ask our sales team for the applicable certification each product type.

### **TESTING**

Our products can be proofload tested on our own, in-house developed 3000 tonne test rig. These can be subjected to NDT tests by our level 2 certified staff. In addition to these in-house possibilities, we also achieved ISO 14001:2004 and OHSAS 18001:2007 certification this year, in addition to our existing ISO 9001:2008 certification.

#### Calculation of test load according as follows:

Lifting shackles

 $\leq$  25 ton PL = (2,0 x WLL) ton > 25 ton  $\leq$  175 ton PL = (1,22 x WLL + 20) ton > 175 ton PL = (1,33 x WLL) ton

Shackles type D14, D16 and D17 PL = according to the offshore mooring chain guide

MBL = according to the offshore mooring chain guide

Sockets, swivels and turnbuckles PL = (2,0 x WLL) ton

Links type SC1 and SC5  $PL = (1,5 \times WLL)$  ton Link type SC2  $PL = (2,0 \times WLL)$  ton

Links type SC3, SC4 and SC6 up to SC9 PL = according to the offshore mooring chain guide

Hooks, tuningforks and triangle plates

 $\leq$  25 ton PL = (2,0 x WLL) ton > 25 ton  $\leq$  175 ton PL = (1,22 x WLL + 20) ton > 175 ton PL = (1,33 x WLL) ton

#### Fatigue calculation of test load according as follows:

For lifting component 1,5 x WLL x 20000

For mooring component (various load) x (quantity of cycles)
